COMPANY OVERVIEW

For 35 years, Z FEDERAL has developed a reputation of exceeding client expectations while forging strong, trusted relationships with our federal and commercial customers and our strategic partners. We combine corporate capacity, technological innovation, performance management systems, and a commitment to customer satisfaction to deliver efficient, cost-effective results.

OUR SERVICE OFFERINGS

Z FEDERAL delivers smart technology, efficient processes and trustworthy resources. We identify desired outcomes, develop solutions, and implement information technology, critical to your success across six service offering areas.

ENERGY

Over three decades of proven success with the Department of Energy providing Energy Analysis, Energy Statistics, Energy Modeling, Energy Survey Design and Data Dissemination. Z FEDERAL's forward-looking insights provide the foundation for informing strategic decisions that drive global development, investment, commercial evaluation and survey operations.

CRITICAL INFRASTRUCTURE PROTECTION & RESILIENCY (CIPR)

With over three decades of service to the Department of Energy, Z FEDERAL has delivered on providing analysis to identify, understand and address infrastructure interdependencies, perform disaster situation analysis, vulnerability analysis and mitigation, as well as data capture. Our CIPR expertise spans across both IT and Operational Infrastructure.

CYBERSECURITY

We protect our partners' assets as they deliver IT services to their stakeholders by utilizing Risk Management Framework (RMF), Active Cyber Defense (ACD), security engineering, penetration testing, vulnerability analysis, Security Operations Center (SOC) support and audits and assessments and implementing Critical Infrastructure Protection (CIP).

SYSTEMS ENGINEERING

Comprehensive range of managed IT solutions including system engineering, architecture, integration testing, operational readiness testing, DevOps, Agile methodology, Web development, network engineering, telecom/VoIP deployment and service desk/end user support.

IT INFRASTRUCTURE

Complete assessment, analysis, design, deployment and smart management of enterprise IT infrastructures, Network Operations Center (NOC)/SOC implementation and operations, data center transformation, business continuity and legacy modernization.

PROGRAM MANAGEMENT

Efficiently manage your critical projects from concept to completion through insightful understanding of business operations, a deep bench of technical resources, comprehensive Program Management Office (PMO) and an experienced team of PMP-certified project managers.

OUR CORE VALUES — A FOUNDATION FOR SUCCESS

Z FEDERAL's Core Values are our cultural cornerstones which guide our company's actions and form the foundation for our business success. For over 35 years, these deeply ingrained Core Values — Excellence, Diversity, Passion, Innovation, Loyalty and Integrity — have served to differentiate Z FEDERAL as a valued partner. We build a foundation for success with each new employee, weaving our core values into corporate processes, further ensuring that our Value Tenets form the basis for every decision the company makes.

Z FEDERAL QUALITY MANAGEMENT SYSTEM (ZQMS™)

ZQMS™ is Z FEDERAL's Quality Management System and is an integral pillar of the Z FEDERAL Management Framework (ZMF™) which embodies corporate practices for managing and controlling both internal (corporate) and external (customer) service delivery, underpinned by recognized Industry Best Practices and governs the delivery of Information Technology services and solutions. In addition, Z FEDERAL received their CMMI appraisal in 2018 in both Services and Development at Maturity Level 3. Our ZQMS™ was certified in 2018 by internationally recognized audit firm, Intertek®, to the new International Organization for Standardization (ISO) 9001:2015 certification for Quality Management Systems. At its core, ZQMS™ is an embedded, comprehensive, and repeatable approach to perform all aspects of our work while enabling our customers and partners achieve their mission objectives.

ZQMS™ IS COMPRISED OF THE FOLLOWING COMPONENTS:

- * Quality Management
- * Risk Management
- * Project Management
- * Agile Software Development (ASD)
- * Earned Value Management (EVM)
- * Leadership Tenets

ZQMS™ BENEFITS TO OUR CUSTOMERS:

- * Delivers Consistent Success
- * Achieves Expected Outcomes
- * Employs Repeatable Processes
- * Built on Industry Best Practices: (CMMI, ISO, PMI PMBOK®)
- * Instills PM Rigor

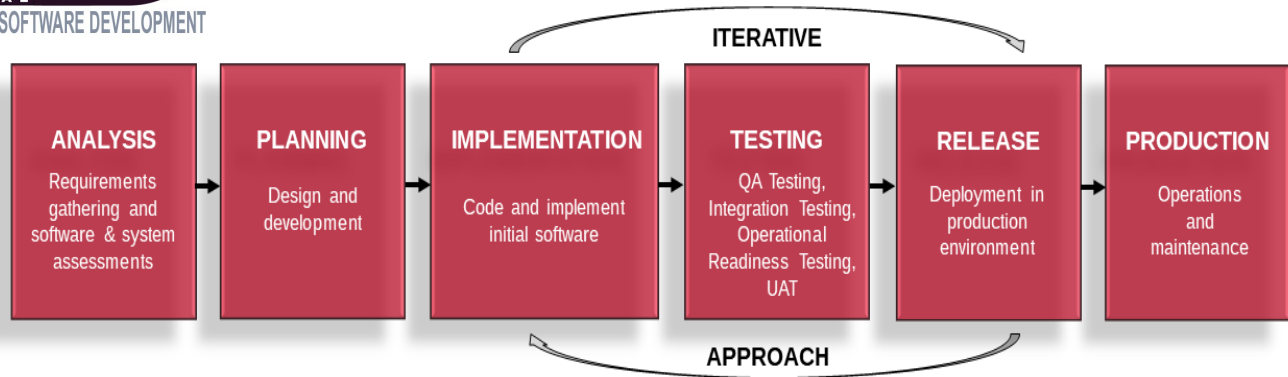

Z FEDERAL AGILE SOFTWARE DEVELOPMENT (ASD) LIFECYCLE

At Z FEDERAL, our goal is to deliver predictable results through an iterative, incremental and results-oriented-approach. Our Agile Software Development (ASD) lifecycle is one of the six components of the Z FEDERAL Quality Management System (ZQMS™). Our ASD provides the Agile framework as each project traverses the lifecycle from Assessments to Production Readiness. An iterative methodology is employed to ensure high-level, quality output with each release.

Z FEDERAL'S ASD BENEFITS TO OUR CUSTOMERS:

- * Early identification of Requirements
- * High-quality software release
- * Early identification and mitigate on of risks
- * On-time delivery & completion within budget
